

What is Carpet Shampoo?

CARPET SHAMPOO is a concentrated cleaner which lathers up to a rich, stable foam that removes and suspends soil from carpet fibres. It produces a dry foam that will not wet the carpet backing.

Key Benefits

- ✓ CARPET SHAMPOO produces a rich dry foam
- ✓ It has an excellent cleaning action
- ✓ CARPET SHAMPOO may be used on any type of carpet

How Does It Work?

CARPET SHAMPOO is a concentrate that is diluted with water. The solution is applied to the carpet via a rotary scrubbing machine with a nylon brush. A rich foam is massaged throughout the fibres.

As the carpet dries, the shampoo and soilage dry to a crystalline, non-oily residue that can be removed by vacuuming. CARPET SHAMPOO contains anti-resoiling resins that protect the carpet fibres and keep carpets looking cleaner longer.

For Use On...

CARPET SHAMPOO is perfect for cleaning all types of carpet with washable fibres (wool, nylons and synthetic blends).

Technical Data

Properties

COLOUR – Transparent amber liquid

ODOUR – Mild fruity fragrance

pH = 8.0 ± 0.5

FOAM – Rich, stable lather

Environmental Care

CARPET SHAMPOO conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. CARPET SHAMPOO is non-flammable, phosphate-free and biodegradable. CARPET SHAMPOO containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996

SAI Certificate No.: QEC7358

Application

- Dilute 1 part CARPET SHAMPOO with from 10 to 20 parts of water depending on condition of the carpet.
- Machine the carpet, with a nylon brush and work the foam into the pile uniformly across the floor.
- Allow to dry then vacuum to remove soil and shampoo residues, - or -

Wet vacuum to remove the soil and shampoo using clean water in the solution tank.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
