

What is Wildflower?

WILDFLOWER is a commercial-grade disinfectant that kills bacteria and leaves surfaces clean and perfumed with a sophisticated floral fragrance.

Key Benefits

- ✓ WILDFLOWER has a dual action to remove unwanted odours – it cleans away the soilage and kills the bacteria that generate bad odours and it reodourises the air.
- ✓ WILDFLOWER is non-Dangerous Good.
- ✓ WILDFLOWER is a concentrate. This saves on freight costs and reduces energy usage.

How Does It Work?

WILDFLOWER is formulated with ingredients to attack and disperse dirt and grease, kill germs and destroy odours. It contains a popular fragrance to create a pleasant perfume in the room where it has been used.

For Use On...

WILDFLOWER is designed for cleaning and disinfecting all washable hard surfaces, including floors, walls, sinks, baths, toilets, tiled areas and fittings.

WILDFLOWER may also be used as an air-freshener.

Technical Data

Properties

COLOUR – Transparent green liquid
 ODOUR – Fine, floral perfume
 pH = 5.5 – 6.5
 FOAM – High level of foam with good stability

DISINFECTANT POWER – Commercial Grade Disinfectant at 1 in 50 dilution

ACTIVE INGREDIENT – Benzalkonium Chloride 2.75% m/v

Microbiological Testing

WILDFLOWER has passed the TGA test for Commercial Grade Disinfectants (Option C) at a dilution of 1:50 against Escherichia coli and Staphylococcus aureus.

Environmental Care

WILDFLOWER conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. WILDFLOWER is non-flammable and phosphate-free. It contains no solvents. All surfactants in WILDFLOWER are biodegradable. WILDFLOWER containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product

that are identified by colour and number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning.

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
LEMON	Light green	3	Disinfectant and Antibacterial detergents

LEMON is a Colour Code 3 (light green) product

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996

SAI Certificate No.: QEC7358

Application

- WILDFLOWER is not for use on therapeutic devices.
- **For Commercial Grade disinfection:**
 Dilute WILDFLOWER to 1in 50 with water. This is 200ml per 10L wringer bucket of water.
 Apply this solution to the surface and wipe or scrub clean. Rinse with water or leave surface damp.
- **Air-freshener:**
 Dilute 1 part of WILDFLOWER with 10 parts of water.
 Spray high into the room with a hand spraygun.
- Do not mix WILDFLOWER with soap, detergents or other chemicals. This may deactivate the disinfectant action.
- Make a fresh solution each day and discard unused solutions at the end of each day.
- Observe the Use By Date printed on the label. Rotate stock properly so the older product is used before the newer stock.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
