

## What is Cleansing Powder?

CLEANSING POWDER is a mild-abrasive, non-scratching cleaner with detergent and chlorine to remove dirt and stains from hard surfaces.

## How Does It Work?

CLEANSING POWDER is a powder cleaner with the powerful bleaching action of chlorine to attack and remove even stubborn stains.

CLEANSING POWDER is based on detergents and soft-polishing powders that give a double cleaning action. It also has a lemon scent to leave surfaces with a fresh lemon fragrance.

### For Use On...

It is ideal for sinks, basins, showers, toilets, benchtops and stoves. CLEANSING POWDER will not scratch glass, porcelain, enamel or hard metals.

### Caution

Do not mix CLEANSING POWDER with any other chemicals or dangerous chlorine gas may be liberated. Avoid use on easily-scratched surfaces such as acrylic modular showers, Perspex screens and soft metals (e.g. Gold tap handles).

## Technical Data

### Composition

CLEANSING POWDER contains alkaline sodium salts together with anionic surfactants and powdered chlorine. Chlorine is released when the product comes in contact with water. CLEANSING POWDER thus also has a sanitising, germ-killing action.

### Properties

COLOUR – White, free-flowing powder  
ODOUR – Lemon scent  
AVAILABLE CHLORINE – 0.5 % or 5000ppm  
FOAM – Produces moderate foam levels when moistened and scrubbed

### Environmental Care

CLEANSING POWDER conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. CLEANSING POWDER is non-flammable, phosphate-free and biodegradable. CLEANSING POWDER containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

### Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996

SAI Certificate No.: QEC7358

## Application

- Sprinkle CLEANSING POWDER lightly on the surface being cleaned and wipe with a damp cloth or sponge to remove soil and stains.
- Rinsing with clean water will reveal a clean and shiny surface.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
